GASOLINE/DIESEL MOTOR OIL

PRODUCT DESCRIPTION

10W-30, is meticulously formulated from premium quality virgin base oils to bring out the best engine performance of new generation vehicles. It provides excellent sludge and deposit control. A robust anti-friction additive helps protect the engine parts on cold starts and resists oil degradation throughout the recommended oil drain interval.

FEATURES & BENEFITS

• Keeps the engine clean for a smoother and powerful ride

• Very High Viscosity Index retains outstanding fluidity at low temperature (sub-zero) and high viscosity at high operating temperatures to completely eliminate metal to metal contact over wide operating conditions

• Very high thermal and oxidation stability ensures longer oil drain intervals

• Provides optimum cooling and helps achieve high engine efficiency
