TECHNICAL DATA SHEET

MOTORS LIVE ATF II

SYNTHETIC AUTOMATIC TRANSMISSION

TRANSMISSION AND STEERING OIL

DESCRIPTION

ATF II, it is an automatic transmission oil.

PLACES OF USE

ATF II, it is used in automatic transmissions and transmissions of passenger cars and heavy vehicles, steering gears and mechanisms with hydraulic system if recommended.

FEATURES AND BENEFITS

- It meets the requirements of commercial vehicles and passenger vehicles at the highest level.
- It extends the life of system elements sensitive to rust and corrosion.
- Provides long transmission life and increases transmission efficiency.
- It prevents the wear of automatic transmission parts.
- It is compatible with all sealing elements.
- It does not get very thick at low temperatures and provides convenience in power transmission.
- It extends the oil change interval with its high oxidation resistance.

TYPICAL FEATURES

Colour	ASTM D 6045	Yellow
Density, @15 °C, kg/m³	ASTM D 4052	0.86-0,90
Pour Point, °C	ASTM D 97	-30
Viscosity, 100 °C, mm²/s	ASTM D 445	5-7,8
Flash Point, COC, °C	ASTM D 92	220

*Values may differ from production to production.
